Spotlight on: Jeff Lewis

Jeff Lewis was recruited as a software trainer/ap- prentice by the KU Libraries in 1997. Jeff is now an experienced, successful software trainer for the KU Libraries and Instructional Development & Support (IDS). He enjoys his position at the KU Libraries very much and finds that his work is very meaningful and fulfilling. He likes having one-on-one contact with people and being able to help resolve their issues. He enjoys being part of the KU Libraries Information Technology Department and having the opportunity to help others with their computer problems.

Jeff enjoys all aspects of his work at the Libraries, especially helping people learn new skills and the impact that he makes on the KU community. What Jeff enjoys most about his job is being able to help people learn. He especially likes helping those who are not comfortable in front of a computer.

Jeff is very versatile in many different software packages and is proficient in all of them. He enjoys helping people learn how to use software that they may not have had much experience with.

Jeff is a very patient person and loves helping people learn new skills. He is very helpful and willing to spend the time it takes to help others learn.

Jeff has a Bachelor's degree in Computer Information Systems. He enjoys working with people and helping them learn new skills and technologies.

Jeff's hobbies include music (playing keyboard and guitar), photography, tennis, and running.

Jeff also enjoys spending time with his family, doing yard work, and spending time with his dogs.

Jeff lives in Baldwin City, Kansas with his wife and two daughters. He is an avid sports fan and enjoys playing tennis, running, and watching sports. He also enjoys playing video games and spending time with his family.

Jeff is currently working on his Master's degree in Library and Information Science at the University of Kansas.

Jeff can be contacted at jlewis@ku.edu or by phone at 785-864-2600.

I am Jeff Lewis, a software trainer for the KU Libraries. I help people learn how to use software applications and troubleshoot computer issues. My goals are to help people be more productive with their computers and to make their work lives easier.

I am currently working on my Master's degree in Library and Information Science at the University of Kansas. I am also completing my coursework for my Master's degree in Library Science.
