Spotlight on Sarah Kanning

Sarah Kanning has been teaching for 13 years, from writing and literature courses at Kansas State University to her current job at the KU Libraries teaching EndNote, Word, PowerPoint, Dreamweaver, job at the KU Libraries teaching EndNote, years, from writing and literature courses Sarah Kanning has been teaching for 12 years, from writing and literature courses

As a teacher, Kanning's instinct is to guide her students. “My favorite part of the job is helping students find ways to make their lives easier and more fun,” she said. While teaching, she’s also learned to value a love of teaching from her father, who was an English professor at the University of Texas.

Kanning is also an active writer and editor; she won the Langston Hughes Creative Writing Award for Poetry in 2005, among other awards. With a BS in Journalism, a Master’s in English Literature, and creative writing, Kanning spent her days helping people write, and evenings teaching poetry at the Lawrence Arts Center.

“As KU, I get to work with faculty and students, teaching people more about crafting parentheticals, design, and proofreading of all kinds,” she said. “And so many of them are doing really fascinating work, so it’s fun to help them figure out the right tool for what they are doing with what they want to do.” Kanning said.

Sarah Kanning is a Digital Imaging Librarian. The Digital Imaging Librarian is a key tool in this transition from print to digital material, the KU Libraries are designing for those contemplating digital material. The Digital Imaging Librarian was designed for those contemplating digital material. The Digital Imaging Librarian is a key tool in this transition from print to digital material, the KU Libraries are designing for those contemplating digital material.

• Digital Imaging Best Practices: Richard Fubii, Assistant Dean for Scholarly Communication, will describe the basics of digital imaging, digital imaging best practices, digital imaging for alternative formats, and digital imaging for archival purposes.

Who We Are

Institutional Services – KU Libraries

Institutional Services – KU Libraries help people use technology for instruction, research, and learning. We offer instruction workshops on computing, writing, and information literacy. In-class instruction for KU courses, custom training for departments and groups, and consulting services for individuals.

To contact us, visit http://www.lib.ku.edu/instruction. Instructional Services is a division of Information Services.

REGISTRATION IS REQUIRED

Workshops are free to KU students, staff and faculty, but they require registration. To register or find out more, visit http://www.lib.ku.edu/instruction/workshops, email training@ku.edu, or call 785-864-0410. The first workshop is offered online, but the next workshop is offered in-person. The first workshop is offered online, but the next workshop is offered in-person.

Key Concepts: Digital Stewardship / Imaging Best Practices

The workshop is divided into three sections:

2. Access to collections / Buffy Miller, Coordinator of Digital Content Development, Scholarly Digital Initiatives, will discuss plans for digital content development, and will provide an overview of the Digital Content Development process. The workshop will be held from 1-3 PM on Friday, October 16th at 1110 Building Hall, Room 119.

Re: Image Recovery

Image Recovery is a division of Information Services.

Get Help Using New KU Web Template

Training this semester in the new KU Web Template is available to employees of the University of Kansas and enterprises of Enterprise Web Services are partnering with Information Services to teach the new KU Web Template.

The first workshop, “Understanding the KU Web Template,” will give attendees a chance to walk through the template. It requires a basic understanding of HTML and CSS. It is open to all attendees. The second workshop, “Creating a Web Site Using the KU Web Template,” will be offered again according to demand.
